

M200

FOR PROFESSIONAL USE ONLY

Description

M200 is a waterborne surface cleaner capable of removing water dissoluble contamination. Use M200 after cleaning with other surface cleaners in the Sikkens assortment.

Pre-cleaning

When a repair is to be made, first wash the car or body panel with warm water and pH neutral detergent. Contamination of residual grease, oil, wax and silicones will not be removed.

Cleaning technique

Wet a clean cloth with M200 and degrease the surface and thoroughly dry with a high quality absorbent cloth. Always use two cloths, one for degreasing and one for removing the contamination.

Avoid the M200 to evaporate.

The purpose of surface cleaning is to remove residual grease, oil, wax, silicones, etc.

Replace cloths regularly by clean ones.

To avoid the risk of fire, dispose of used rags in a sealed container place them on the floor grid until the solvents have evaporated. Where bodyfiller is exposed, avoid contact with M200.

Health and Safety

Akzo Nobel Car Refinishes recommends to provide adequate ventilation during cleaning and degreasing. In addition, wear suitable respiratory protection and suitable gloves.

VOC

2004/42/II B(a)(200)200
