

# Autoclear Mix & Matt, points of attention

FOR PROFESSIONAL USE ONLY

## Description

This Technical Service Bulletin describes the best practices in application of Autoclear Mix & Matt.

## General Remarks

This paint system is the equivalent to systems recommended by the major motor manufacturers, and is applied in state of the art facilities under strict quality control standards.

## Points of attention

To avoid possible differences in gloss, make sure to mask body apertures and moulding / badge holes.

Spot repairs are not possible.

The only way to perform a repair is by edge to edge.

Make sure to avoid visible masking lines, since polishing isn't possible either.

It is not possible to apply decals, stickers or graphics to Autoclear Mix & Matt.

### Dirt ingress during spraying:

Make sure to 'soak' the ingress so it will not be visible after drying.

### Dirt ingress after Drying:

Denib the ingress and redo the panel.
